

Parent letter in support of the  
After School Grant Program

To whom it may concern

OPMAD is more than just an after school program for my family and I. It is a learning center that provides love, compassion and learning experiences that our child does not receive in her daily homeroom class. The staff members, which feels like family always display professionalism and kindness. To receive all of this dedication at an affordable rate is such a blessing.

During OPMAD hours, my child completes her home work, has baking classes and does various activities that allows her to learn and expand her creativity. All while having fun. Jade (my daughter) has recently received Hawk of the month honors. I truly feel that OPMAD has played a role in that accomplishment.

This organization provides great professionalism. The staff is very organized and keeps parents informed of everything going on. The best of all is that they truly care.

Being a single mother, an employee and a student can be financially challenging. Having a program for my child to participate in after school, that I can actually afford, is amazing. I'm not stressing on half days & find someone to pick my child up and provide day care until I can get there.

In closing, OPMAN is a wonderful program with amazing staff. The compassion, patience and professionalism they display is truly a blessing. It is very hard to obtain dependable child care at such affordable rates. Thank you so much for granting me this opportunity. Without OPMAN and its rates it will be very difficult. So thanks again.

Sincerely,  
Alfie
